ADAPT TO ANY ENVIRONMENT...

Compaero manufacture and supply an extensive range of connector adapters to suit harsh environments across land, sea and air. Available solutions can provide both environmental and non-environmental sealing capabilities, effective EMI and RFI shielding and impressive strain relief options for almost any application.

Standard range adapters can be customized from a huge selection of options to ensure that your Compaero product is fully fit for purpose, whilst our team of experienced design engineers are on hand to work with you to provide bespoke solutions for more specific needs.

EMI/RFI SHRINK BOOT ADAPTERS
Example Shown: Series 46

Shrink boot adapters provide an economical approach to terminating overall cable and harness shields while accepting a lipped shrink boot.

ENVIRONMENTAL ADAPTERS
Example Shown: Series 60

Environmental adapters protect the wiring side of the connector from dust, dirt, moisture and fluids.

EMI/RFI ENVIRONMENTAL ADAPTERS
Example Shown: Series 80

EMI/RFI Backshells enclose the cable in a tightly woven metal braid comprised of wire strands, creating an effective shield which helps to prevent EMI/RFI interference.

CONNECTOR INTERFACE CODES

For standard circular interfaces

Compaero offer termination solutions for virtually all known connector interfaces, the variants highlighted below are our standard lines, available on all product lines shown in this catalogue.

To discuss connector interface options not shown, please contact your local sales representative, or visit www.compaeroindia.com

CONNECTOR INTERFACE	INTERFACE CODE
EN2997, ESC10, ESC11	A
EN3645	H
MIL-DTL-26482-SERIES II	A
MIL-DTL-38999 SERIES I & II	F
MIL-DTL-38999 SERIES III & IV	H
MIL-DTL-5015 CRIMP	A
MIL-DTL-83723 SERIES I & III	A

All Compaero backshells are available in a wide selection of material and plating combinations, from heavy duty marine applications to lightweight aerospace solutions, there is an option for almost any situation.

CODE	MIL SPEC CODE	MATERIAL	PLATING	PROCESS	ROHS COMPLIANT
B		Marine Bronze	Shotblast, Nonreflective	1000 Hour Salt Spray, Conductive -65 to +200°C	Yes

*Available as qualified M85049/128 product - see website for details

Notes:

1. Optional part marking available - contact sales team for details
2. Material: 300 series stainless steel, passivated

Part Numbering System:

Stainless Steel Constant Force Spring Band Option

- Re-usable and self tensing to secure both overall and individual braid termination.
- Easy to install - requires no tooling while providing a high level of tensile strength to the assembly.
- Suitable for corrosive environments and are not affected by vibration, shock or extreme temperatures.

ENTRY	BAND REF	A MAX		B		TURNS ±0.25

inches millimeters
Tolerance ±0.01±0.25

Memory Ring Option

- Low-profile, high-strength, shape-memory-alloy shield termination device
- Available in many sizes to accommodate various entry sizes and shield configurations
- Ideal for lightweight aerospace applications requiring repeated high-to-low temperature cycles.

See Series 49 (page 14) for full Memory Ring Adapter details.
